My New Folder	4	
		Set

Admin has been loaded

This will create a folder on the system and load the file management:

Upload files to filetree/TESTFOLDER
Drop files here to upload or click to select
Add a new folder to filetree/TESTFOLDER 637
Add
NOTE: Spaces are not allowed, use - or _ instead
file clicks delete selected files Admin has been loaded

Uploading Files

You can either select multiple files from your PC and drag them onto the "Drop files here..." box

OR

Click on the "Drop file here..." box to select one or more files from your PC.

Once files are dropped/selected you will see the upload icon for each file

Upload files to filetree/TESTFOLDER
Springs Welcome booklet 2022. 23.pdf B.pdf
Add a new folder to filetree/TESTFOLDER 637
NOTE: Spaces are not allowed, use - or _ instead
file clicks delete selected files

Once these have completed (and there are no errors) the page will reload and the files will be shown:

Create a Sub Folder

Enter the name of the sub folder into the text box under the "Add a new folder to..." box and click on the Add. This will add the new folder and reload the page.

Uploading Files to a Sub Folder

Click on the sub folder, note that the "Upload files to..." and "Add a new folder to..." entries change showing that any files will be uploaded to the sub folder. Add files as before.

NOTE: once uploaded the page will be reloaded which will reset the FileTree, always check you are uploading to the correct folder before adding new files.

Deleting Files

Select the files to delete by ticking the checkbox next to the file. Once they are all selected click on the "delete selected files" button. They will be permanently deleted from the system.

NOTE: Deleted files cannot be recovered from the recycle bin.
