Title: Enter a title for the pop-up, this is not shown on the popup and is used as a reference.

Image: Upload an image for use on desktop devices (if not mobile image is set this is also used on mobile devices) – in desktop mode this image will be set as a background image and will crop depending on the amount of text (if displayed).

Content: Rich text for the main content of the pop-up (not displayed if the pop-up is set to image only).

Link: If set a link button will be shown.

NOTE: If Image Only is set the image will become the link.

Image Only: Set if only an image should be shown (for poster style popups)

Mobile Image: If added this will be shown on the mobile version of the popup (useful for poster style image-only popups where wider popups are hard to read)

Maximum Width: Sets the maximum width of the popup to control layout (e.g. 800px)

Is Active: If set the pop-up will show once per user session (a session starts when a user first visits a site and ends when a user closes the browser)

Start Date: The popup will only show after this date if set.

End Date: The popup will only show before this date if set.
